Our company, which manufactures both metal and plastic components for windows and doors under the trademark of REZE was established in Istanbul in 2009.

We have a production area that spreads over 2 buildings and 18.000 square meters of closed facilities that are equipped with the most modern technology and machinery that constitute a dynamic structure which is capable of constantly updating itself and its modern machinery park.

Our company has a powerful R&D department, which in cooperation with TOOLING and AUTOMATION departments can design appropriate and useful products that adapt to the markets it exports to, which in the end helps us to make the high quality production that can reach and satisfy the end user in the best way possible.

Our Mission;

Paying the best attention to our personnel and investing into them in order to create a strong foundation for the continuous production of high-quality and environmentally friendly products while also taking the preferences and wants of our clients.

Our Vision;

We aim to fully maximize the perceiving of branding awareness with all our employees.

We also aim to maximize our global recognition in the near future by making appropriate investments in the markets where we operate, and plan to exist in.

DSTU - Ukraine

GOST - Russia

ISO 9001 : 2015

DIN EN 13126-8:2018-01

Reze Warranty ;

- Tilt & Turn Systems, Multipoint Door Locks and Adjustable Door Hinges under Reze trademark are manufactured by Yaba Yapı Donanımları San. ve Tic. Ltd. Şti. in the factory that located in Istanbul.
- Yaba Yapı Donanımları San. ve Tic. Ltd. Şti. company tends to the highest level of the quality in the production process, sales and support for all of its products in order to meet needs and expectations of its customers and end users.
- All products are regularly held at the quality test on special equipment in accordance with EN norms.
- All our special manufacturing technologies and know-hows according the products are appropriately registered and have the Utility Model Certificate No. TR 2009 08100 Y.
- Tilt & Turn systems tests are conducted in accordance on compliance with the standard EN 13126-8: 2006 (15.000 tilt and turn opening cycles).
- Door hinges tests are conducted in accordance on compliance with the standard EN1935: 2002. (200.000 cycles of opening).
- All galvanic coated production is tested for compliance with EN 1670-1, and tests are carried out on special equipment and in accordance with the requirements of ISO 9227.

Guarantee Conditions;

- In case of installation was done according to instructions and the recommendations of manual, the warranty of perform a mechanical process of opening and closing for all products is 10 years.
- The guarantee does not apply to cases in which the product or part thereof comes into disrepair as a result of improper installation, damage caused or the impact of unusual weather conditions and force majeure.
- Products, that appropriate to warranty conditions should be replaced by the manufacturer.

The background of the slide is a grayscale photograph of a window's internal mechanism. It shows a white frame with a hinge and a balance arm, likely for a tilt-turn window. The text is overlaid on this image.

 - Color - Red

- Frame Jig
- Product Code: 222102
 - Axis 9/13 mm
 - Right/Left
 - Hole diameter 6 mm
 - Color - Red

Window Hardware

Tilt & Turn System

Security pins and special designed strikers, that include in standard complectation allow you to initially provide basic security for closed casement.

Universal Mishandling & Lifting Device provides high-quality operation of the element as a lifter function. If necessary, adjustment is possible in the counterpart according to height.

Tilt & Turn System

The special design of the Top hinge on the sash with bevels at an angle of 45° allows you to reduce blowing in one of the most affected areas - the upper corner, where it is located directly.

The Night-vent function are implemented very conveniently.

The special Corner Transmission is universal for right and left opening.

It is possible to install a space for ventilation from 2 mm to 20 mm.

Strikers is also universal for both axis, for 9 mm and 13 mm.

LONG LASTING

EASY
INSTALLATION

WIDE COLOUR
RANGE

Double Casement System

On the Stay Arms larger than 650 mm specially designed strikers mechanism, which allows to facilitate the work of wide sash when closing. This function is reminiscent of door closer does the work of large and heavy casements more convenient and comfortable.

Double Sash Gear differs in soft work and provides dense closing of a shutter on double casement windows.

Turn Only System

All elements of the Turn Only System can minimize heat loss and have sufficient durability.

Tilt Stay System

Tilt stay can be used both on the sides of the sash and on the top. The mechanism for removing traction from the frame is easy and convenient to use.

Sash Hinge - Top

Product Code : 230101
Allen Key Reze 4 mm

Code	Description	
207101	Sash Hinge - Top (9 / 20 mm)	100
207102	Sash Hinge - Top (13 / 20 mm)	100
207103	Sash Hinge - Top (14 / 20 mm)	100
207117	Sash Hinge - Top (14,5 / 20 mm)	100
207110	Sash Hinge - Top (11 / 20 mm)	100
207108	Sash Hinge - Top (10 / 20 mm)	100

Sash Hinge - Bottom 3 mm

Code	Description	
207201	Sash Hinge - Bottom 3 mm	100

- Casement Jig:
- Product Code : 222103
 - Axis 9/13 mm
 - Right/Left
 - Hole diameter 3 mm
 - Color - Red

Sash Hinge Adjustable - Bottom 3 mm

Code	Description	
207207	Sash Hinge Adjustable - Bottom 3 mm	100

- Casement Jig:
- Product Code : 222109
 - Axis 9/13 mm
 - Right/Left
 - Hole diameter 3 mm
 - Color - Grey

Sash Hinge - Bottom 6 mm

Code	Description	
207202	Sash Hinge - Bottom 6 mm	100

- Casement Jig:
- Product Code : 222104
 - Axis 9/13 mm
 - Right/Left
 - Hole diameter 6 mm
 - Color - Red

Sash Hinge Adjustable - Bottom 6 mm

Code	Description	
207208	Sash Hinge Adjustable - Bottom 6 mm	100

- Casement Jig:
- Product Code : 222110
 - Axis 9/13 mm
 - Right/Left
 - Hole diameter 6 mm
 - Color - Grey

Rebated Sash Hinge Bottom

*Can be installed without pattern

Code	Description	
207203	Rebated Sash Hinge Bottom 13 Axis Left	100
207204	Rebated Sash Hinge Bottom 13 Axis Right	100
207205	Rebated Sash Hinge Bottom 9 Axis Left	100
207206	Rebated Sash Hinge Bottom 9 Axis Right	100

Frame Hinge - Top 3 mm

- Frame Jig;
- Product Code : 222101
 - Axis 9/13 mm
 - Right/Left
 - Hole diameter 3 mm
 - Color - Red

Code	Description	
208101	Frame Hinge - Top 3 mm	100

Frame Hinge - Top 6 mm

- Frame Jig;
- Product Code : 222102
 - Axis 9/13 mm
 - Right/Left
 - Hole Diameter 6 mm
 - Color - Red

Code	Description	
208102	Frame Hinge - Top 6 mm	100

Frame Hinge - Bottom 3 mm

- Frame Jig;
- Product Code : 222101
 - Axe 9/13 mm
 - Right/Left
 - Hole Diameter 3 mm
 - Color - Red

Code	Description	
208201	Frame Hinge - Bottom 3 mm	100

Frame Hinge - Bottom 6 mm

Drilling
depth
23 mm

- Frame Jig;
- Product Code : 222102
 - Axe 9/13 mm

A white-framed glass door is shown partially open, revealing its internal mechanism and handle. The door is set against a solid, muted reddish-pink background. The text "Door Hardwares" is overlaid on the left side of the image in a large, thin, grey font.

Door Hardwares

Multi-Point Door Locks

Multi-Point Door Locks are manufactured in a metal case, due to which they have enhanced operational characteristics. There is a wide range of standard application ranges in height, the possibility of extension using additional elements, the possibility of trimming to the size of the sash.

3D Door Hinges "ALPHA XL"

3D Hinges For PVC Doors - "ALPHA XL"

Made from galvanized steel, covered by plastic, resistant to UV and freeze. Three-dimensionally adjustable and selectable, overlap thickness.

Multi-Point Door Locks

Multi-Point Door Locks are applicable in double sash doors, the modular design allows you to supplement the sash in the upper part, using more locking points.

3D Door Hinges "Avalon"

3D Door Hinges "AVALON"

Made from zamak alloy. Three-dimensionally adjustable and selectable overlap thickness

Cylinder Door Locks

Cylinder Door Locks for PVC doors are made in a metal or plastic case. A wide range is available for use with various profile systems and door handle options.

The entire range of door components meets high quality standards. Door hinges and door locks provide comfortable and safe operation of door structures.

Cut-off Multi-Point Door Lock

35/92 - Latch / Deadbolt & Latch

reze
Window & Door Hardware

Latch & Deadbolt

The diagram illustrates the Latch & Deadbolt assembly with various components and dimensions:

- Components:** 20510X, 203101, 205123.
- Dimensions:**
 - 85mm (height of latch)
 - 25mm (width of latch)
 - 20 (thickness of latch)
 - B1, B, C1, C (horizontal distances between components)
 - A (total horizontal distance from start to end of main assembly)
 - KA (overall height)
 - 250mm (vertical distance from top/bottom edge to main assembly)
- Note:** Applicable at sizes over than 2160 mm (+250mm).

Door Double Sash Gear and Accessories for them

Door Double Sash Gear are used in double casement doors made of PVC profile. The convenient handle in the middle part allows easy and comfortable opening and closing of the sash. Specially designed Corner Transmissions, which are used in the lower part, securely fix the door with the help of a locking plate, which is integrated into the profile of aluminium doorstep.

Locks for Aluminium Doors "SIGMA"

High-quality locks, easy installation and comfort in operation.

Metal case, diameter of connecting pins - 6 mm.

All models of these locks are a handle operated.

Wide range of the backsets from 25 mm to 35 mm.

Options for the handle axis 85 or 92 mm.

For use in doors made of aluminium profiles.

Pneumatic Cutting Press

Code	Description	
230103	Pneumatic Cutting Press	1

- Complete set:
- 1) Pneumatic piston with a cutting nozzle
 - 2) Ruler
 - 3) Pneumatic Pedal
 - 4) Hose Set
 - 5) Installation instructions

Note : Required air pressure - 6 BAR.

A close-up photograph of a white sliding window frame. The frame is shown from a low angle, highlighting the handle and the track mechanism. The background is a solid, muted red color.

Sliding Systems

Parallel Tilt & Slide System

Parallel Tilt & Slide System is made for single sash and double sash structures.

The high quality of components and assembly ensures long and reliable operation.

Parallel Tilt & Slide System

The opening and tilt mechanism works comfortably and conveniently.

There is a wide range of accessories for sashes of different sizes.

A detailed close-up photograph of a window's internal mechanism, specifically a parallel tilt and slide system. The image shows multiple horizontal tracks and a central tilting arm with rollers, all in a light-colored metallic finish. The background is a solid olive green.

Basic Sliding System

Basic Sliding System

Basic Slide System is made for single sash and double sash structures. The high quality of components and assembly ensures long and reliable operation. We have innovative products as well as standard solutions. High quality and comfortable operation of all units is confirmed by many years of production experience and popularity in many countries of the world.

LONG LASTING

EASY
INSTALLATION

Sliding Gears

Various options of the gears backsets,
from 7 mm, 15 mm and 17mm

Wide selection of the gears ranges
for any type of Casement heights.

Special design of the Strikers,
optional standard of economic application.

Choosable pins - Steel or Zamak alloy,
for different applications.
include Aluminium Systems

Exceptional models of the Espagnolettes
for different solutions for instance
American Systems and another.

Sliding Gear Variable

15mm T-S (8-5mm)

Outward Opening System

Outward Opening System

Outward Opening Gears are developed for standard windows and doors and have simple application features.

Owing to quality materials and accurate approach in assembly in the final of manufacture process is turns out a durable gears that flawlessly perform their function for a long time.

Classical solutions ensure comfortable and usability applying for final consumer.

Outward Opening Gears are simple and easy to assemble and also provide long, reliable and comfortable operation of window or door structures.

A large assortment of types and sizes of the Outward Opening Gears and special Strikers make the work of window and door manufacturers fast and high-quality.
